LIBERTY REPUBLICAN—THE  
DAILY PUBLIC LEDGER—1860

MAYSVILLE, KENTUCKY, SATURDAY, JANUARY 24, 1914.

ONE COPY—ONE CENT.

In winter for more heat we fess,  
In June heat makes us sold;  
And when things get too hot for us,  
We find the world is cold.

REV. G. W. BUNTON D. D.

Former Pastor To Be Here March 8th  
To Assist The Present Pastor, Rev.  
Lester, In Revival Services at  
Third Street Church.

The pastor and official Board of the  
Third Street M. E. Church have been  
exceedingly fortunate in securing Rev.  
G. W. Bunton, D. D., a former pastor  
but now pastor of Union M. E. Church,  
Covington, Ky., to assist in a series  
of revival services to begin March 8th.  
The simple announcement that Dr.  
Bunton is to be here to preach in a series  
of meetings will meet with great de-  
light by his hosts of friends. There is no  
more eloquent and successful young  
minister in the Methodist Church than  
Dr. Bunton. The Third Street Church  
will look forward with eager anticipa-  
tion to these meetings and every prepa-  
ration that can possibly be made for  
their success will be made.

### HERE'S NEWS FOR YOU!

It is a well-known fact that in sowing one  
bushel of clover seed to six acres that an average  
of 66 clover seeds are sown to every square foot of  
ground. In broadcasting the wind and rain carry  
the seed in patches. Some portions have so much  
seed on that it cannot grow; other parts have no  
seed at all. Drill your seed with the

WHERE AN AMERICAN ENGINEER LIVES

BOTANICAL GARDENS AT  
RIO DE JANEIRO

LAGUNA DEL INCA, ANDES

If you crave the unusual it may be encountered in South America as in few other lands. But before visiting that part of the world make sure you are well supplied with money and in a mood to put up with more or less discomfort and inconvenience; for the exceptional will be your portion in this line as well as in others," says Frederic S. Isham, author and globe trotter, in the Detroit Free Press.

"South America is a land of magnificent distances, also of surprises, some of which are not exactly welcome, although on the whole it is a very interesting part of the world," said Mr. Isham, recounting some of the experiences that befall them on the trip. "You are constantly running on to the unexpected, so that there is no danger of being wearied by lack of variety."

"We met one man who has the most trying position of which I know. He's an American—a big, broad shouldered, athletic chap, with the polish of a university man and the breezy open-hearted manner of a true westerner."

"He is an engineer, and it is his duty to see that the Chilean division of the Trans-Andean railroad is kept free from land and snow slides.

"That doesn't sound so bad, does it, because you can have no conception of what means unless you have seen the country. The Trans-Andean railroad is a third-rail system in the strictest sense of the word. That third rail is located between the narrow gauge strips of steel on which the cars travel, and is a cogged affair into which teeth on the driving wheels of the locomotive slip, giving sufficient grip to pull the heavy trains up the almost perpendicular course."

"On the Chilean side of the Andes it is a case of climbing almost every foot of the way, and at times it seems as though the locomotive must fall backward on the cars that follow."

"This chap lives in a little stone house close by Inca lake, in the Andes, 12,000 feet above sea level. He has a gang of natives under him, and at certain seasons of the year they are kept on the jump battling with snow slides, which bury the tracks so deep that it requires days of the hardest kind of work to clear them."

"Then the mountaineers have a playful habit of casting off a good big slice of rock and dirt, which comes tumbling down across the tracks and puts an end to travel until it has been removed."

"Sometimes these pranks result seriously, and there's many a lonely grave along the right of way to indicate the last resting place of some poor section man who was buried beneath a slide. Last winter a few square acres of snow and rock and ice came crashing down on a crew that were endeavoring to clear the tracks. Part of them escaped untouched and immediately began digging out their fellow workers. At the end of 20 hours they came upon a sorry figure—a battered man who had borne the full brunt of the slide."

"And what do you think he did when they pulled him out, more dead than alive? Iterated their for leaving him buried so long."

"You're a live lot," he sternly, "why, you left me in there two hours. It wasn't your fault that I didn't die."

"And the hands on the clock had started on their third round trip since the slide went over him!"

"The place this engineer calls home is one of the most God forsaken spots I ever saw. They try to keep the road open the year round, but there are three of four months every winter when trains are few and far between, and the district is virtually cut off from the outside world."

"The scenery along the route is impressive—but somehow I didn't envy this particular American his job."

"Crossing the crest of the Andes and getting down to the Argentine plains you strike one of the widest gauge railroads in the world. Service on the line is not so bad—in some respects."

"They have single and double compartment cars for male and female passengers. It was my ill fortune to draw a seat in a double compartment with three Spaniards. Now, they are not exactly the traveling companions you would select for a 24-hour ride across the plains, a journey that is trying under the most favorable conditions."

"They are passionately fond of onions of a particularly rank variety. Without exception they smoke cigarettes that make burning rubber reminiscent of attar of roses. Most of them are affected with bronchial trouble. They detest fresh air. Also they never have acquired a liking for a cold plunge before breakfast—or a bath any other time, for that matter. When I was ready to enter the train three of the most disreputable representatives of their species were settled comfortably in the compartment. Delightful prospect."

"Just about that time I had the good fortune to run into an American engineer who was on his way to Buenos Aires. He had the same luck as I—three of the unwashed in his compartment. Fortunately he was able to talk some Spanish."

"Let's bribe the guard and see if we can't get a compartment to ourselves," I suggested.

"No sooner said than tried. Presently my newfound friend came back. We had with our train a virtuous guard. Offered five dollars to effect the desired change, he spurned the tender with a fine display of indignation. He could not be hired—for such a paltry sum, plus for ten dollars he would throw the dirty rascals out, bag and baggage."

"Gladly I contributed the other half of the bribe. Soon baggage began to fly out on the platform, followed by a jolting trio, who made the Argentine air blue with picturesque profanity as they protested against this summary ejectment."

"They produced tickets to show they were entitled to seats in this particular compartment. The guard, in his most impious manner, informed them that he cared not what their tickets called for. Did not he have the official chart of

## CO-OPERATION IN BIBLE TIMES

In common with many of the prophets of Bible times, Ahijah, the man who placed Jeroboam over the ten tribes of Israel, was a rural man, W. A. Lippincott writes in the Kansas Industrialist.

Eliah, who outwitted the brilliant and scheming Queen Jezebel, went about preaching in his shepherd's mantle and carrying the shepherd's staff,

as though proud of his country origin. Of Eliah, his successor, we are told that at the time when Eliah offered him in his job as his helper he was

overlooked in their endeavor to outstrip all others who were to fill the telegraph poles and to use gold wires.

The road impressed me so that I made some inquiries, and discovered the reason for this lavish expenditure. It seems that one of the terms under which the concession was granted was that

all profits above 8 per cent. were to go to the government.

As an example of up-to-date construction and equipment the railroad which runs from Santos to Sao Paulo, in Brazil, commands attention. It is doubtful if there is anything more complete anywhere on earth. The road is only 25 miles long, but so far as I could discover the only thing they overlooked in their endeavor to outstrip all others was to fill the telegraph poles and to use gold wires.

desert and the surrounding countries. They cooperated just as the sturdy pioneers of our own early colonial days co-operated in the use of the stockade—because they had to. And the trend of the times seems to be that the farmers of today are co-operating more and more for the same reason—because they find they have to.

It's a case of self-preservation now as much as it was in Bible or early colonial times. The enemy is not the same, save in the characteristic of being a common enemy. Then the necessity was military; now it is economic and social, but it is just as real.

And there are those who have studied this question deeply, who feel very certain that the time will come when the American farmers will again be gathered into farm villages, as the farmers of Germany have already gathered, under the pressure of economic necessity and as a part of a broad program of co-operation.

### HERE'S THE SIMPLE LIFE.

The south for years was rich hunting ground for the lover of the picturesque, but changes both numerous and rapid have occurred there in recent years. The old negro types of the cotton fields are no more. The log cabins, the pine groves, and even the stately plantation mansions, recalling the flowery days of "hefo do waho," are passing away.

Fortunately for those who enjoy seeing life as it is lived where there is a real attachment to the soil, the French section of Canada is left.

Here along the lower St. Lawrence river one may find conditions exactly as they were a century ago.

Here the "one-horse shay," the pride of colonial days, is making its last stand. In the fields where spinning is still an everyday task!

I have sat in these simple homes, watching deft fingers at the spinning wheels and listening to their whirling sound that is like the hum or bees. It was in one of these old interiors that I photographed Grand'mere Trudeau. She sits looking from her cabin across the river, thinking of a son at sea—Christian Herald.

Germany have already gathered, under the pressure of economic necessity and as a part of a broad program of co-operation.

### HERE'S THE SIMPLE LIFE.

The south for years was rich hunting ground for the lover of the picturesque, but changes both numerous and rapid have occurred there in recent years. The old negro types of the cotton fields are no more. The log cabins, the pine groves, and even the stately plantation mansions, recalling the flowery days of "hefo do waho," are passing away.

Fortunately for those who enjoy seeing life as it is lived where there is a real attachment to the soil, the French section of Canada is left.

Here along the lower St. Lawrence river one may find conditions exactly as they were a century ago.

Here the "one-horse shay," the pride of colonial days, is making its last stand. In the fields where spinning is still an everyday task!

I have sat in these simple homes, watching deft fingers at the spinning wheels and listening to their whirling sound that is like the hum or bees. It was in one of these old interiors that I photographed Grand'mere Trudeau. She sits looking from her cabin across the river, thinking of a son at sea—Christian Herald.

And there are those who have studied this question deeply, who feel very certain that the time will come when the American farmers will again be gathered into farm villages, as the farmers of

Germany have already gathered, under the pressure of economic necessity and as a part

TAFT TAKES A SHOT AT WAVE OF SOCIAL ANARCHY SWEEPING OVER THE WORLD.

Philadelphia, January 22.—In a speech here Wednesday night, former President Taft deplored the hysterical and impractical "reforms" that are riding through the nation, and called for a halt in the movement which calls itself "pure democracy."

### Views of Taft.

"Liberty" in education, on the stage and in literature, is a danger. Spanking would be proper treatment for children who go on foolish school strikes.

Sex literature is causing former modesty and restraint to be abandoned. Well-to-do are being made scapegoats for those yielding to sin.

We are not going into socialism, which would mean tyranny of majority and dead level of retrogression.

### ITEMS FROM THE DOVER NEWS.

Mrs. Etta Bullock White, for some years located in Seattle, Wash., is expected to return to Dover this summer to permanently locate in her old home town.

The new K. of P. building is now under roof and the interior is being finished by a corps of carpenters under the supervision of Contractor Hanselman.

On Thursday last the Dover Packing Company shipped to Cincinnati on the steamer Courier 315 cases of canned tomatoes. The shipment consisted of 830 dozen, or 7,560 cans of fine tomatoes as anyone could wish.

Beginning Thursday evening, January 22, services will be held at the Methodist Church by the pastor, Rev. H. M. Massie, of Augusta, preliminary to the Quarterly Meeting to be held Saturday and Sunday.

The Quarterly Meeting will be conducted by Rev. J. Q. A. Vaught, President of the Covington District, who will preach Saturday evening and Sunday morning and evening, January 24, and 25.

### PORSCMOUTH CLUB PULLS OFF A BIG BASE BALL DEAL.

(Portsmouth Times.)

One of the biggest baseball deals ever pulled off in the Ohio State League since its origin was closed at the annual meeting of the league at Lexington, Ky., Tuesday evening, when President William Gableman of the local club traded "Biddy" Beers, Homer Cain and Ed Hartwig to the Lexington club for Weller, Goosetree and Dunlap. Confirmation of the deal was received by The Times Wednesday morning in a wire from President Gableman who added that other deals involving local players were pending and would be closed before he returned home.

Announcement of the deal caused great surprise among local fans on Wednesday, although it was understood that some of the players on the local roster were ticketed to evict in new fields next season if a satisfactory deal could be arranged. All six of the players involved are well known to Portsmouth fans, having been playing in the Ohio State league from one to three years each.

### A '51' DAY.

Sunday will be a "More than fifty day" at the Christian Church.

There have been placed before the congregation placards to announce the day for two weeks past. No explanation was given. It is now known that the idea of the announcement originated with the Endeavours who seek to have fifty at their Christian Endeavor meeting next Sunday evening.

However the desire to have at least 51 present now possesses the men of the Men Class in the Bible School and of the teachers in the Junior and Primary departments of this church. The scholars in these classes are expected to be present and bring visitors.

Once before the Men's Class had it "more than fifty." They desire to have it so Sunday.

The hand work planned for the Junior and Primary classes can be continued Sunday as the tables will be established by them.

### Our Colored Citizens.

On Tuesday evening, January 20th, at 3 o'clock, the members of Congo River Tabernacle, No. 80 held a most delightful session at their lodge rooms in the Old Fellow's building.

This being the occasion of the annual visit of Chief Grand Mentor A. Q. Greene of Mayfield, Ky., the members were out in all their splendor and the happy beauty of joy seemed to be in evidence everywhere. As Mr. A. Q. Greene is one of the most graceful and entertaining talkers in the State there is always a full attendance on his annual visit.

At the close of this indeed, splendid meeting a surprise came to the Grand Chief and members alike, like a thunder bolt from a clear sky. When Mrs. Alice Lane, the faithful and beloved High Priestess of Congo River Tabernacle No. 80, came forward and after a tender, touching and timely talk to the members, she tendered her resignation as High Priestess of the Congo River Tabernacle. The Chief Grand Mentor and members were "thunderstruck" and put forth every effort to have Mrs. Lane reconsider the matter and continue at the head of the lodge. She felt however, that she had served them long and faithfully and this was the opportunity for her to give up her post while the Grand Chief Mentor Greene was here on his annual visit, when he could name her successor. Mrs. B. L. Dudley was apoluted as the new High Priestess. The Chief Grand Mentor paid Mrs. Lane the compliment of not only being the best High Priestess that Congo River Tabernacle has ever had but the best in the State.

### GOES TO LIVERPOOL.

Rev. Albert Hale, former pastor of the Dover Christian Church, gets big charge.

(Augusta Chronicle.)

Elder Albert Hale left here Saturday morning for Wurtland, Greenup County, to join Mrs. Hale and children, who preceded him to that point several days before.

After spending a few days with his family he will leave for New York City, from which point he will sail for Southampton, England, where he will visit his mother, who is about 80 years of age, as well as brothers and sisters in various parts of England. Rev. Hale has accepted a conditional call to the pastorate of the Christine Church at Liverpool, the second largest church of this denomination in England, for three months, with the understanding that if the charge is agreeable to him he will accept the pastorate, in which event Mrs. Hale and the children will join him and they will make that country their home. Rev. Hale, who is a native of England, landed in the United States, May 10, 1889, and this will be his first visit to his old home, and it is needless to add here that it will be a joyous occasion for the old mother. He has many friends in Augusta who will wish him God-speed on his journey, and the best luck wherever he may choose to locate.
